Shipping Weight	602 pounds (274 kg)
Shipping Container (LWH)	77x43x33 inches (196x109x84 cm)

All specifications subject to change without notice or obligation

The KY400 Trencher is capable of trenching up to 40 inches (102cm) in depth with a 5½-inch (14cm) wide cut. It is designed with dual Push-N-Pull cylinders to assure positive boom control for digging, boom lift, and transport.

The terminator/cup combo chain offers carbide cutting tips for excellent cutting performance in a variety of soil conditions. Digging teeth bolt onto the chain for easy replacement.

The KY400 attached to a VENTRAC 4000 Series tractor gives the operator the ability to maneuver into hard-to-reach locations without damaging the turf like a traditional track unit would.

STANDARD FEATURES

- Terminator/Cup Combo Chain with carbide cutting tips
- Depth indicator for accurate depth of cut
- Dual Push-N-Pull Cylinders for lift and cut
- Adjustable Crumb Scraper
- 5 ½ inch (14 cm) wide chain with 40 inch (102 cm) cutting depth
- Ventrac Mount System
